ACHIEVEMENTS

Problem Solver badge on Codechef.

state level Street play lead role

RESPONSIBILITIES

- The Fort cleaning(NSS) T2023 (EVENT CO-ORDINATOR)
- Lead Role in College street play

PROJECTS

SMART SALON

Flutter | SpringBoot | MongoDB | Junit Testing | Postman

- The Smart Salon App reduces waiting times by letting customers register for service and displaying their place in the queue and estimated waiting time. Push notifications remind users of their turn, enabling them to arrive on time.
- The app enhances customer satisfaction and helps salons attract more customers.
- I collaborated with three other developers to build a project, where I focused on developing the backend REST API's using Java Spring Boot.

NEWS ON APP

Xml | Java | NewsApi | API Testing

- A java based android application implemented using Xml as Frontend and Java as a backend language, News Api, Json parsing, Data Binding.
- This app has the feature of users can see the daily news according to their interests.
